

The Weekly Warrior

September 29, 2023

RMSD Update

Dr. Bickert
Superintendent

Next week the calendar rolls over to October and we are quickly approaching the end of the first nine weeks grading period. I encourage all parents to check your student's progress via Powerschool. (Students, if you're reading, I encourage you to get all your assignments turned in now!) If your student is in need of tutoring or additional help, please contact your child's school.

If you are interested in fierce competition, I invite everyone to drop by Ruidoso High School this Saturday, September 30, 2023, as we host the 2023 Sierra Blanca Academic Challenge! RHS will be sending two teams into mental battle against teams from Mescalero, Tatum, Portales, and Lordsburg. Seven rounds of competition begin at 9:00 a.m., with elimination rounds happening after lunch. If you've never experienced an academic competition, please stop by and support the Warriors!

Please check the upcoming events listed below and support our student athletes by attending games/competitions when you can. Thank you!

Wishing everyone a wonderful weekend! *Dr.B.*

SVP

Our 2nd graders learned all about apples this week to kick off the beginning of fall.

WME

Introducing our 3rd grade "Shout Out" bulletin board. Stay tuned for more student "shout outs!"

RMS

Our 6th graders reviewed for CBM #1 with an assessment-prep basketball game!

RHS

RHS students had fun with physics by experimenting with descending rates by using plastic bags as parachutes!
