RMSD Update

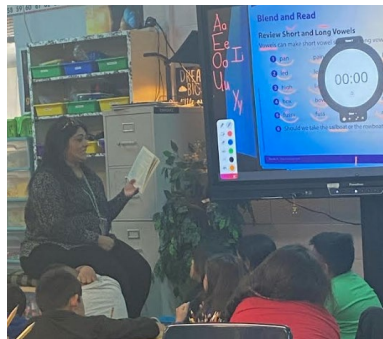

For the 2023-2024 school year, the New Mexico Public Education Department has designated all four RMSD schools as "Traditional" based on information from NM Vistas, a comprehensive platform evaluating school performance. NM Vistas generates a summary score by assessing academic proficiency in reading, math, and science, and also considers college and career readiness, graduation rates, attendance, and school climate.

Beyond academics, NM Vistas evaluates educator quality, discipline, and financial data to provide a holistic view of school performance. This approach identifies both strengths and areas requiring additional support for improvement.

We appreciate your continuous support and commitment to your child's education. Together, we strive to enhance the educational experience for our students, maintaining our dedication to providing the best learning environment.

Wishing everyone a wonderful Thanksgiving break next week!

Becca Ferguson
Director of Learning and Student Services

SVP

SVP first graders disguised turkeys for the holiday season.

WME

Bilingual Class at WME enjoyed a read aloud story.

RMS

Sixth graders were recognized for their academic achievement for Quarter 1. Great job, 6th graders!

RHS

RHS students in Mechanics and Welding classes are up to some amazing projects this fall.
